Ultra-narrow 3.5mm bezel-to-bezel design format (2.3mm bezel on the left and top sides and 1.2mm bezel on the right and bottom sides) bezel

the display creates a virtually uninterrupted viewing experience to keep audiences focused on content rather than the display itself.

1.1.2 Video Matrix Switcher

6x6 HDMI Matrix Switcher with a high-performance matrix switcher for HDMI signals. It should re-clock and equalize the signal and route any input to any or all outputs simultaneously.

1.2 Audio

1.2.1 Ceiling Mount Speakers

Flush-mount loudspeaker designed for background music and speech reproduction in a wide range of installed applications. Wide, even 140° conical pattern and frequency range down to 80 Hz. The loudspeaker is a DS loudspeaker family designed for background music and speech reproduction in a wide range of installed applications. These high-performance, full-range, flush-mount speakers are well-suited for retail stores, restaurants, hospitality venues, public spaces, offices, meeting rooms, hallways, entrance ways, lobbies and restrooms.

1.2.2 Ceiling Microphone array

The Microflex®Advance™ Ceiling Array is a premium networked array microphone for AV conferencing environments, including boardrooms, huddle rooms, and multi-purpose spaces. The ceiling array uses Shure's Steerable Coverage™ with Autofocus™ technology: 8 highly directional pickup lobes capture participant audio from overhead, continually fine-tuning the position of each lobe in real time as participants lean back in their chairs or stand up.

The microphone also includes the IntelliMix® DSP suite, which includes AEC, noise reduction, automatic mixing, and more. Control the microphone with Shure Designer software, or a browser-based web application. The microphone integrates seamlessly with Dante™ digital networked audio, AES67, and third-party preset controllers, including Crestron and AMX, to deliver a high-quality AV conferencing experience that appeals equally to integrators, consultants, and meeting participants.

1.2.3 Handheld Microphones

Wireless Systems combine professional-quality sound with simple setup and an intuitive interface for legendary audio performance right out of the box. Precision-built and available in a variety of configurations, it's the most accessible way to own the stage.

Includes a single-channel receiver, a handheld transmitter, microphone clip, power supply, 2 AA batteries, and user guide.

1.2.4 Lavalier (Lapel) Microphones

Lavalier mics combine professional-quality sound with simple setup and an intuitive interface for legendary audio performance right out of the box. Precision-built and available in a variety of configurations, it's the most accessible way to own the stage.

Includes a dual-channel receiver, 2 bodypack transmitters, 2 lavalier microphones, lavalier clip, windscreens, and user guide.

1.2.5 Wireless Presentation System

Wireless Presentation System consists of two USB-powered devices, each with a ClickShare button, and a base unit. The base unit has a fixed connection to the meeting room's visualization system and takes care of all the needed processing. You can simply connect a button to a Windows or Mac computer and click the ClickShare button, and immediately the desktop is wirelessly transferred to the large visualization system. Alternatively, when using a smartphone or tablet (either iOS or Android), a simple app allows you to share content as well. The system's stability and ease of use also limits the number of needed interventions by the IT department. You can connect to 16 Clickshare buttons to the CSM base unit simultaneously.

1.2.6 Audio Conferencing Processor

The Audio-Conferencing Processor offers IntelliMix DSP algorithms optimized for audio/video conferencing applications, featuring 8 channels of acoustic echo cancellation, noise reduction and automatic gain control to ensure a high quality audio experience. Easy to install and configure, provides Dante (10 in / 2 out), Analog (2 block in / 2 block out), USB (1 in/out) and Mobile (3.5 mm) connectivity options that makes connecting to room systems and collaborating with laptops and mobile devices easier than ever. Seamless integration with Microflex Advance and Microflex Wireless microphones.

1.2.7 Zone Amplifier Mixer

The amplifier with MP3 and tuner family ranges from 60W, 120W to 240W. It integrates 2 audio sources into a 5 zone mixer amplifier, plus 3 microphones and one extra aux input. Mic 1 vox, EMC input for voice alarm system and built-in chime makes this amplifier is versatile while cost affordable. Two USB slots on front and rear panel provide easy access and operation for installer and end-user.

A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior

opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products (Executive Order 13126)*.
